NORRIS ASKS UNIFORM SHOALS POWER SALES

WASHINGTON, June 30 .- (A) Carrying further the effort of Senator Black, democrat, Alabama, to have the government sell Muscle Shoals power to municipalities, Senator Norris, republican, Nebraska, introduced a resolution today to authorize the war department to make such sales under uniform price contracts.

war department to make such sales under uniform price contracts.

The resolution was referred to the agriculture committee and there was little indication that action would be taken at this session.

While Senator Black's resolution, which was adopted unanimously by the senate last week, merely expressed the sense of that body that power generated at Wilson dam should be sold to municipalities, the Norris proposal actually would authorize such sale.

Senator Black charged last week in the senate that the government was losing \$4,000,000 a year by withholding power from the municipality of Muscle Shoals, in Alabama, which has failed in repeated efforts to buy some of the surplus energy of the government project.

He also disputed claims by Secretary Hurley that sale of power to cities and towns near the project would violate the existing contract between the government and the Alabama Power Company, asserting that

would violate the existing contract between the government and the Alabama Power Company, asserting that the contract did not specify the Alabama concern was to have exclusive right to purchase the power.

The senate has asked the war department for a copy of the contract and Black has proposed that the judiciary committee make an investigation to determine whether power is second.

tion to determine whether power is being sold to the company in accord-ance with the law.

Secretary Hurley said today he would immediately furnish the senate with copies of the agreement with the Alabama Power Company. He added that much of his reply already had been made public in a letter written to Black.

that much of his reply already had been made public in a letter written to Black.

In that letter Hurley said the amount guaranteed by the town of Muscle Shoals would total \$14,600 a year and that the plant was not designed to distribute retail power to small consumers.

Senator Norris' resolution said that until some definite disposition is made of the government "problem at Muscle Shoals the secretary is authorized to sell the power generated at dam No. 2 and at the steam plant belonging to the government in that vicinity, to states, counties, municipalities, public organizations, private corporations and individuals under contracts providing for the termination thereof by the government on notice of 12 months."

"In such sale of power," the resolution added, "there shall be no discrimination against any state, county or municipality. All contracts for the sale of such power shall be uniform as to price and other provisions relating to kind and quality of the power sold."

Infant Mortality Rate Here Third Highest in Nation

ortality rate of 93.8

A mortality rate of 93.8 per 1,000 live births among infants less than one year old was reported for Atlanta in a summary of vital statistics for 1929 published by the federal bureau of census. The rate for Georgia was 77.2 per 1,000 births.

The rate is the third highest in the United States. Nashville, with a rate of 98.1. was highest, and Memphis, with 95.3, was second.

Dr. T. F. Abercrombie, head of the state health department, said that the high death rate among infants was due to three factors—a high influenza death rate in the early part of 1929 and the last of 1928; a decrease in the number of births, which makes the deaths show high by comparison, and a large death rate among negro infants.

Statistics of the state board of health for Atlanta show that the death

a large death rate among negro infants.

Statistics of the state board of health for Atlanta show that the death rate among white infants under one year of age for 1929 was 77.2 per 1,000 live births, while among negroes it was 131 per 1,000.

Statistics of the state department differ slightly from those of the federal government, due possibly to differences in geographic area considered. The 1929 records of the state show 3,479 white and 1,736 negro live births in Atlanta in 1929. While the number of negro births was only half as large as the number of white births, 278 negro deaths were reported against 262 deaths of white infants under one year.

278 negro deaths were reported against 262 deaths of white infants under one year.

Altogether 57.729 births were reported in Georgia in 1929 and 57,123 in 1928. The total number of deaths in 1929 was 35,337, and in 1928 was 36,001. In 1929 the number of infant deaths was 4,455, and the number in 1928 was 4,882.

The state rate was substantially in keeping with the rate of other neighboring states. Alabama's rate was 73.5, North Carolina's was 79.1 and Mississippi's was 72.1.

The report showed 2,142,124 live births in the registration area of the United States in 1929, a decrease of 78,663, or 3.6 per cent, from the year before. Nevada, New Mexico and Utah were not included.

The number of deaths was 1,356,-882, almost identical with the number in the same area the year before. The infant mortality rate for the area as a whole was 67.3, 1.5 lower than the rate of 68.8 established in 1928.

Hungarian Pretender To Study in England

BUCHAREST, June 30.—(P)—Legitimist circles of Hungary assert that Prince Otto, pretender to the Hungarian throne, probably will begin his studies next year either at Oxford or at Cambridge if British authorities will consent.

Count Albert Apponyi, in the course of an assembly of the legitimists said that no attempt would be made to force a king upon the nation or the people, adding that the only way toward restoration of the throne lay in honorable agreement with the nation.

Count Francis Hunyadi spoke similarly, declaring that the legitimists would not attempt to disturb the people of the country by means of a "putsch" which would be an outrage against the nation.

EmoryReadyToTakeCharge Of Grady, Oppenheimer Says

Colored Unit Is Pointed To in Statement by School Dean.

Pointing out that Emory University now gives rent free the use of all buildings housing the colored department of Grady hospital, contributes \$30,000 in salaries of attaches of that \$30,000 in salaries of attaches of that division and "continually purchases necessary equipment for the proper care of patients because it has not been possible to get the city to buy it." Dr. Russell H. Oppenheimer, dean of the Emory Medical school, issued a statement Monday saying that Emory is ready to take over full professional responsibility for the operation of the city hospital.

"The school stands ready to accept "The school stands ready to accept this responsibility whenever the citizens of Atlanta want it to." Dr. Oppenheimer said. "If 'Atlanta's citizens feel that the school can meet this responsibility properly and would like the school to try to do it, the school is willing to assume the responsibility. It would be a fair, proper and sensible thing to do. "It would be in line with the genuine southern spirit of educational and governmental advancement." al and governmental advancement

Staff Would Be Kept.

"A question." the Emory dean said, "which probably is uppermost in the minds of many is what would become of the present staff of the white hospital. They would be needed, every one of them. The job of caring for the patients at Grady is too enormous to get along without them. If Emory Medical school were to have professional responsibility for the whole Grady hospital, it would need only the authority to administer that responsibility. In the continuation, as well as in the choice of hospital staff members, no questions of personal friendships, religion, politics or other extraneous circumstances should have any part. Staff membership must be any part. Staff membership must be concerned only with professional ability and integrity and faithful performance of duty. Upon these qualities alone in a staff depend the satisfactory operation of a charitable hospital."

Explaining that Emory has never had any control or authority in the expenditure of funds at Grady, Dr. Oppenheimer added:

School Nominates Doctors.

School Nominates Doctors.

"The school, through its administrative officers, nominates the doctors who form the staff of the colored hospital. These nominations are approved by the hospital and charities committee of the city council. The doctors so elected visit the colored hospital, examining the patients and prescribing for them as they would do for their own private patients. The staff members instruct the internes, as is done in every hospital. They assist also in the instruction of stuas is done in every hospital. They as-sist also in the instruction of stu-dents in the school of nursing. Final-ly, as members of the faculty of the school of medicine they teach to medi-cal students the principles and prac-tice of medicine."

DR. JESSE H. YORK QUITS GRADY POST.

\$1,000,000 HIGHWAY CONTRACTS TO BE LET Agoga Class Leader

State Road Board Will Decide on Date at Meeting Today.

The state highway board will meet Wednesday to discuss plans for letting contracts for approximately \$1,000,000 sometime this month.

Protest has been filed by Houston county citizens with federal authorities against plans of the state highway board to construct a road from Perry, in Houston county, to the Pulaski county line, with limerock and asphalt, instead of concrete.

A telegram signed by more than 200 citizens said that the county would stand the difference between the costs of the two types of paving. Part of the money for construction of the road, it was said, is supplied from a county bond issue.

Hoover Acts Today On Waterways Bill

WASHINGTON, June 30.—(A)—
President Hoover intends to approve or veto either tomorrow or Wednesday, the rivers and harbors bill carrying millions of dollars for work in various parts of the country.

It was said today at the White House that reports upon the bill had been received from the several departments and the measure tonight rested upon the president's desk, awaiting action.

Moving to Tallahassee, Judge McLeod established and edited two publications "Land of Flowers" and "The Economist." He later combined these into "The Tallahasseean," which now has been changed to the Daily Democrat.

He also published newspapers at Ellaville, Ga., Crawfordville, and other parts of Georgia and Florida, and was one of the organizers, in 1882, of the Florida State Press Association. He also was one of the founders at New Orleans, of the National Press Association.

Judge McLeod was the father of 13 children, seven by his first wife, who formerly was Miss Margaret Catherine Calloway, of Live Oak, and six by his second wife, who was Miss Mattie Morris, of Wakulla county. Nine of them still are living.

They are Mrs. Ola Stout, Fort Myers; R. D. McLeod, Jr., Apalachicola; Albert Norman McLeod, Newton, Ga.; Mrs. Ruby E. Barber and Norris McLeod, Palatks; and Henry, Mattie, Kenneth and Louise McLeod, of Crawfordville.

Income Tax.

Stor.000,000 in five years, it was estimated.

The senate, with short discussion, passed another bill today to improve administration of veterans' aid, authorizing the president to consolidate the veterans' bureau, the pension bureau, and the national home for disabled veterans who pay income tax, was removed from the bill by the senate today in the opening day of consideration.

The bill was debated most of today, with Senators Walsh, democrat, Massachusetts, and Connally, democrat, Texas, leading the campaign for a bill ment today for an agreement to vote to the pressons would be heard for 10 years. The Hoover income tax clause eliminated today would have had the effect of barring pensions to disher the veterans' bureau, the pension bureau, and the national home for disabled volunteer soldiers. The bill has already been passed by the house, and is a beginning on the administration proposal for a consolidation of government bueaus.

The bead of the new organization is to be known as the administrator of veterans' affairs, and will get a salary of \$12.000 a year.

Reed and Senator McNary, republicant, Oregon, pressed before adjournment today for an agreement to vote to the president to consolidate the veterans who earn \$3,500 a year, if married, \$1,500 if single, or more. These are the income tax exemptions, those with incomes of these amounts or over being required to pay taxes are to the proposal for a consolidation of government bueaus.

Close Vote Decides MacDonald Test

LONDON, June 30—(#)—The labor government won a narrow victory in the house of commons tonight on the question of the channel tunnel scheme the house of commons tonight on the question of the channel tunnel scheme to link England and the continent. On a motion in favor of the scheme, recently rejected by Prime Minister Ramsay MacDonald, the laborites were victorious by only 179 votes to 172. The vote, however, was a free one, and not along party lines.

In reply to those favoring the tunnel plan, laborite speakers said diplomatic and state reasons that could not be argued publicly in the house made it impossible for England.

Prime Minister MacDonald declared "those responsible for the conduct of the foreign affairs of this country are agreed that the existence of the tunnel would not make it easier for us to conduct the diplomatic affairs of this country, and that the present position helps us best to advance our pacific policy."

Hundred Stitches Taken in Body of Negro Woman

CORDELE, Ga., June 30,—(A)
An even hundred stitches were
taken in the body of a negro
woman here after she and another
woman had engaged in a terrific
hand-to-hand encounter.

Sorrowfully nursing a wound
where her adversary bit of a
finger, the hundred-stitch razor
wielder bemoaned the fact that
her fazor "wasn't very sharp."

The pavement was wet and although neither car was triveling fast, the collision was a hard one. Occupants of the other car escaped uninjured.

Mr. Carter sustained few minor cuts and a badly wrenched back, while Mrs. Carter was shaken up considerably and received a deep and long gash through the left eyebrow. The cut was deep enough to touch the skull but the blow did not fracture it. One of their children was also slightly cut.

BARNESVII.LE, Ga., June 30.—
Three hundred Epworth Leaguers from 28 leagues in the Griffin district will meet at the Georgia Industrial college in Barnesville Thursday night, July 3, with the Barnesville league as hosts. John Boesch is president of the local league, and the other officers are: Mary Moore, vice president; Doris Moore, secretary; Clarence Suggs, treasurer, and Ann Sims, Era agent.

New Marketing Body W Distribute Products Begin ning July 1.

ATHENS, Ga., June 30.—A group of dairy farmers of Clarke and adjoining counties have just completed the organization of a co-operative marketing agency for the distribution of their products, to become effective July L. Heretofore, as a general rule, former distributing agencies of that kind here have been operated in such way, as to profit the distributor instead of the producer. Dairying specialists of the Georgia State College o. Agriculture have assisted the organization committee in working out the details and by giving practical information.

The organization has obtained a plant in Athens to which the milk of the members will be delivered direct from the farms, and from which but, ter, cream and whole milk will be distributed to consumers.

The plans and policies of this co-operative association include that all milk delivered to the factory must be fresh, unadulterated, pure, and must be the product of healthy cows which have been tested for tuberculosis once a year. All milk delivered to the factory must be grade A as specified by city ordinance.

Members of the co-operative are required to deliver their entire production to the association, and payments are to be made on the basis of quantity and butter fat content. Stock membership shall be limited to members, and the dividends are not to exceed acree per cent.

Each member is to have one vote and additional votes on the basis of quantity of milk delivered: savings and profits are to be distributed to members in accordance with patronage.

MACON, Ga., June 30.—(47)—Alcoholically speaking Macon is 50 per cent drier than a year ago, according to F. D. Dismuke, recently reappointed deputy prohibition administrator for the middle district of Georgia, with headquarters here.

"Whether public sentiment has been changed materially in regard to the national prohibition act I am not prepared to say, but I do know the actual consumption of liquor in Georgia has decreased rapidly within the last year," Mr. Dismuke said.

The statement was made during a meeting of the twenty-odd agents working in this district. The assembled agents concurred in the statement of less activity in distilling and selling whisky.

CHICAGO GRAIN AND PROVISIONS.

BY JOHN P. BOUGHAN. Associated Press Market Editor. CHICAGO, June 30 .- (P)-Newly

harvested wheat arriving in big volame at domestic market centers southwest bowled prices down like nine-pins today. The heaviest receipts of wheat so far this season rolled in from the farms, aggregating about 4,000 carloads at the principal southwestern centers. Arrivals of wheat at all domestic primary points were nearly 2.1-2 times as great as a week ago but not equal to last year's exceptionally huge aggregate.

hoge aggregate.
Closing quotations on wheat were unsettled, 1 1-8 to 1 1-2c a bushel lower than Saturday's finish. Corn closed 3-8 to 1 1-4c down, oats 3-8 to 1 1-4c down and provisions varying lower than Saturday's finish. Consel 3-8 to 1 1-4c down, oats 3-8 to 1 1-4c down, oats 3-8 to 1 1-4c down and provisions varying from 5c decline to an equal gain.

At times the selling of wheat future deliveries attained a high-speed character, and many standing orders to stop losses were forced into execution, but the pressure diminished when the market came near to recent bottom record levels. Corn and oats, however, sympathizing with wheat weakness, outdid any low prices heretofore reached this season. Meanwhile, wheat values were pushed down not only by the increasing movement of winter wheat to market but also by messages telling of ideal harvest conditions prevailing southwest and of rains northwest beneficial for growth of spring wheat both south and north of the Canadian line.

Downward swings of the Liverpool wheat market today acted further as a notable depressing influence, especially as indications during much of the day pointed to only a small amount of export business in progress from North America. Notice was also taken of 2,416,000 bushels increase of the amount of wheat on ocean passage. Subsequently, however, signs pointed to a good-sized export demand coming in as a result of the breaks in prices. The fact was not overlooked that the United States wheat visible supply today showed 2,166,000 bushels increase a year ago. Under such circumstances, something of a rally in prices was evident as the day drew to an end. Corn and oats were mainly influenced by wheat market depression, but favorable weather for the new corn crop was also effective in sending feed prices downgrade.

Upturns in hog values operated to sustain the provision market.

NEW YORK, June 30.—Raw sugar was less active today and although prices were unchanged the undertone was easier, with efferings more liberal. The only sale very partied was \$2000 bear of the propertied was \$2000 bear of the properties at 3.35.

The increased offerings in the spot market and the circulation of 24 July notices had a depressing effect in raw furners, with final prices showing net losses 66 to 8 points. The market opened 1 to 3 points lower and continued easy throughout the remainder of the session under liquidation and selling by houses with trade and Cuban connections. There was a little scale down covering, but the demand was not very large and final prices were at the lowest of the session.

According to a prominent European crop authority the beet sugar acreage in Europe, excluding Russia, is estimated at 1,907,000 hectares, against 1,928,000 estimated at the end of May, while Itusia was placed at 1,000,000 hectares, against \$00,000 hectares, against \$00,000 hectares at the end of May. There may have been some selling on the increase in the Russian acreage estimate, which more than offset the slight decline for the crest of Europe, although the principal reason discussed was the failure of the demand to continue for the spot article.

NEW YORK, June 30 .- (A)-Trad-

NEW YORK, June 30.—(P)—Trading in cotton was very quiet today with an early decline under liquidation and scattered local selling followed by rallies on covering.

July contracts after selling at 13.63 at the start declined to 13.41 and closed at 13.46 or 13 points net lower while the new October after selling off to 12.93 rallied to 13.03 and closed

off to 12.93 rallied to 13.03 and closed at 12.98 compared with 13.02 at the close of Saturday. The general market closed steady at a net decline of 13 points on July and 2 to 5 points on October and later deliveries.

The market opened steady at unchanged prices to a decline of 11 points, under selling which seemed to be promoted by the outlook for unsettled weather with showers in parts of the south. The relatively steady showing of Liverpool brought in enough buying to absorb the initial offerings and hold the market fairly steady right after the call, bout the circulation of a few additional July notices caused a little near-month liquidation.

liquidation.

Offerings of new crop months also increased following the official forecasts which were in line with the early reports of prospects for unsettled weather with possible showers and the market worked off a few points in the morning. The old October sold down to 13.21 and the new December the market steadied up during the aftber advanced to 13.18 and closed at 13.15.

Some of the private reports reaching here from the south commented rather favorably on the higher temperatures of last week, but the failure of this and the more favorable view of the weather outlook to bring in general selling was a disappointment to eral selling was a disappointment to early sellers which probably accounted for part of the afternoon buying. The July notices issued here were estimated at about 2,500 bales, including deliveries at Savannah.

Liverpool cables said American sell-ing had been absorbed by continued buying in that market. Port receipts today 4,940. United States port stocks 1,665,203. Exports 10,701, making 6,649,164 so far this season.

SPOTS DECLINE AT NEW ORLEANS.

NEW ORLEANS, June 30 .- (AP)-The cotton market was rather tame today with narrow price fluctuations and absence of definite trend to prices. Despite good Liverpool cables the marker opened irregular six points down on July to 1 up on October.

The market gradually cased off during the morning on prospects for showers in the belt and on lack of support, dropping to levels 7 to 12 points below Saturday's close, but recovered about 5 points of this loss soon after midsession.

A general desire to know the policy of the farm loan board with respect to the new crop restricted trading. The market continued quiet for the helance of the session, recovering

spect to the new crop restricted trading. The market continued quiet for the balance of the session, recovering 3 points from the lows on a little covering. The general market closed steady at net declines of 4 to 9 points.

Liverpool came in 3 to 6 points better than due. By the end of the first hour July traded down to 13.10, October to 12.97 and December to 13.12, or five to 8 points below Saturday's close.

The market rallied slightly around the middle of the morning, but soon

NEW YORK, June 30.—Monday's cotton market was a quiet affair with fluctuations insignificant throughout the session. While the net result was a small loss in quotations, that proves nothing. The weather continues hot and dry; scattered showers are forecast. During this week more or less consideration will be given to the preliminary acreage estimate July 8. It is now thought the figures will approximate 45,500,000 or moderately higher. It is significant to us that the market is short as it does not decline further. Anything which would cause covering would change the range of quotations importantly. We favor buying on moderate dips. October Liverpool due 6:98.

LIVINGSTON & CO.

NEW YORK, June SO.—The stock market Monday gave the best performance that it has in recent weeks so far as sustained atrength is concerned. The turnover was quite small, but the absence of any pressure of selling stood out in bold relief against the trading of the last several weeks. On the floor it was said while the demand for stocks was small they were exceptionally hard to purchase and gains which were slight in the early trading increased more rapidly during the afternoon, although there was a comparatively negligible increase in the amount of trading. Money was advanced first to 2½ per cent and later to 3 per cent without having any effect on the market as it was clear this strengthening was due simply to monthend conditions. The high grade industrial stocks such as Steel, Air Reduction, Can, etc., were in particularly good demand, with the rails also showing some gains.

FENNER & BEANE.

NEW YORK, June 30.—Obviously disconcerted by the persistence of investment buying so noticeable in recent sessions, operators on the short side of the market were constrained to give stimulus to the upward movement of the market by further covering. Attempts to depress prices were made when weakness developed in the commodities markets, but such attempts met with such meagre success as, in reality, to have the effect of accelerating the page of the advance.

short covering today. Short covering is expected to continue for the remainder of this week which ends with a three-day holiday. Many professional traders invariably have a clean slate over an extended holiday.

There is a difference of opinion in Wall Street as to the size of the outstanding short interest. Some believe the outstanding short interest is very large; others maintain that the short interest will be pretty much eliminated by the end of this week.

Rail Earnings Off.

Chicago Northwestern reports May gross of \$11,387,000 against \$13,122,-000 a year ago, with net of \$1,446,000 against \$2,320,000. For the five months gross of \$52,567,000 compares with \$58,490,000 a year ago and net of \$4,433,000 with \$6,847,000.

The first 73 railroads to report earnings for May show a decrease of 134 per cent in gross and a decrease was as cheap as it now is the average income return on seasoned dividend paying stocks was 8 per cent. That was in June of 1921. For months the stock market merely marked time at that level and then a creeping bull stock market started. Interest and dividend payments next month will mount to \$750,000,000. Stock prices may go lower. But interest and dividend money can safely be reinvested in seasoned dividend paying stocks at existing prices. In addition to offering an attractive yield well selected stocks will in time show handsome profits.

The average renewal rate for call money this month was 2.6 per cent compared with 3.11 for May and 7.6 for June of last year. The average renewal rate for June was the lowest since November of 1924 when the earnings for May show a decrease of 13.4 per cent in gross and a decrease of 32.5 in net. President Storey, of Atchison, reported today that his road would make a better showing in net for the remainder of the year by reducing operating expenses. Doubtless other roads will follow Atchison. The detailed statement of April earnings for the railroads as a whole published today by the bureau of railway eco. today by the bureau of railway economics shows that the carriers made good their promise to President Hoover last autumn that they would continue to spend money to help stimu-

The United States Chamber of Commerce announced today a statistical study of American foreign trade showed exports for the first three months of 1930 to be but 4 per cent less than the average of similar periods between 1924 and 1928.

Dix Stars at Cameo In 'Lovin' the Ladies'

Radio Pictures has given its star, Richard Dix, a most amusing and characteristic screen role in "Lovin' the Ladies." the all-talking comedy romance showing through today at the Cameo. Produced with smartness and played with definess, "Lovin' the Ladies" is splendid entertainment. The film moves rapidly, is rich with genuine comedy and contains a number of shrewd characterizations. There now are 1,000 miles of street car lines, operated by two companies, and 160 miles of "L" trackage managed by the Insuli interests.

The battle of mass meetings, statements, denouncements and curbstone harangues became more general as the time for voting drew near, but if they whipped the average straphanger into a fever the local papers failed to note it. "I oppose granting permanent control over transportation to the Insullinterests, which are chiefly responsible for the present Insull-Ettelson-Thompson city government which is a disgrace to Chicago. These men have proved unworth, of public trust."

Harold L. Ickes, chairman of a peoples lengue against traction, found fault with the ordinance because he thought it grant to thote.

"It Us Be Gay" is the title of the picture but it doesn't mean a thing. Over-Spending Laid To Sooner Candidate

OKLAHOMA CITY, June 30.—(P) Charging that C. J. Wrightsman, of Tulsa, wealthy oil man, had spent excessive sums in 1924 and again in his present campaign for the demo-cratic nomination for United States senator, Woodson E. Norvell, an op-ponent today filed suit to enjoin the state election board from placing Wrightsman's name on the primary

ballot.

Wrightsman lost the senatorial nomination in 1924 to J. C. Walton, for

ination in 1924 to J. C. Walton, former governor, who was defeated in the general election by W. B. Pine, republican.

Norvell charged records would disclose that Wrightsman spent \$98,000 in the 1924 campaign and authorized an additional indebtedness of \$50,000 in violation of the state election laws which set the maximum at \$3,000. In the present campaign he alleged Wrightsman "has spent far in excess of the amount allowed by law."

Wrightsman did not file a statement of his 1924 campaign expenses with the state election board, saying he had been advised by the state attorney-general it was unnecessary.

Paramount Opening Draws Publix Star

Miss Jeannette Waite, star dancer and dance producer with the Publix Theater Corporation, arrived in Atlanta Monday to supervise the stage production, "Valentines on Parade," which will be an important part of the opening program for the new Paramount. The theater reopens Saturday, after being dark two weeks for extensive repairs and alterations, with a new combination stage and

Miss Waite came here in advance of the "Valentines" unit in order to be sure that everything was in perfect condition for the opening. Publix considers the Paramount in Atsouth and, inasmuch as the stage units are coming here directly from New

orleans, where they are organized, the local presentation is of exceptional importance.

In addition to this unit—which includes in its personnel several famous singers, comedians and dancers, in addition to a dancing chorus of a dozen selected beauties—the opening Jack Holt as the noble villain, and you have something inevitably worth seeing.

When you add a splendid piece of characterization by Eugene Pallette—who almost steals the show—you have entertainment de luxe.

There is lots of wild riding—the story is told to the tempo of galloping hoofs—and there is plenty gunplay at the climax.

Jack Holt is the leader of a gang of outlaws in the late '60's. Dick Arlen is a decent sort of cow puncher who, by accident, becomes a member of the gang. And Fay Wray is kidnaped by the bunch as an incident to their planned raid upon a gold rush town. You'll admit the plot has rich possibilities and, when you see it, you'll

Vou'll admit the plot has rich possibilities and, when you see it. you'll concede that they are fully realized.

On the stage there is an elaborate unit entitled "Odds and Ends." Some clever dancing is the high spot, with rib cracking comedy furnished by Sidney Marion. An octette of dancing girls add largely to the effectiveness of the offering, while a couple of, feminine vocalists and a male harmony duo also please.

Featured side by side with this
comedy on the week's bill is the African wild animal picture, "The Wild

Incredible creatures are shown in
their native haunts. Lions, elephants,
giraffes, hartebeests, gnus and all the
cross-word puzzle animals; also some
peculiar peoples, some of whom are
more amazing than the beasts. It is

A thoroughly entertaining program is offered by the Metropolitan this week, with two features so widely different in type that 'most any variety of the genus amusement seeker ought to be satisfied with at least one, and, probably, both parts of the program.

First honors are given by this con rist nonors are given by this com-mentator to the picture "Up the Con-go," taken in Africa and depicting the experiences of two white women who penetrated into the land of pygmies, giants and cannibals. Also of wild animals, by the way.

There are many seenes in this picture which brings life in the tropical forests of equatorial Africa so vividly before you that you seem to live and see the actual happenings yourself. Particularly is this true of the scenes in the native villages, with the religious dance rituals and the strange customs of this primitive peoples. The description by one of the exploration party is also unusually good.

party is also unusually good.

The finest part of the picture is that showing a tribe of giants deep in the forest, with traits that lift them far above the usual African natives. Traits such as cleanliness and decorations for their huts. The features of this tribe, particularly those of the women, display a remarkable degree of intelligence.

The other feature picture, "The Dude Wrangler," is a well-told story of the west, with an eastern "mamma's boy" developing into a he-man capable of punching out the villain when the climax comes. And, of course, winning the girl. Well told, with plenty of comedy and with good performers—George Duryea, Lina-Basquette, Clyde Cook and Francis Bushman stand-out in retrospect—it is a pleasing piece of screen fare. is a pleasing piece of screen fare.

Marital Rift Ends In Murder, Suicide

WASHINGTON, June 30.—(P)—
Charles R. Craddock, 38, today shot
his divorced wife, Mrs. Blanche Craddock, to death and then killed himself.
At the apartment house where the
slayings occurred, police were told that
Craddock, whose home is in Alexandria, Va., tried to persuade his wife
to let him stop paying alimony. She
refused and Craddock drew a revolver
and began firing. He was a railroad
engineer.

Eugenia Bankhead To Marry Aviator

RENO, Nev., June 30.—(A)—Mrs. Eugenia Bankhead Hoyt Butt, daughter of Congressman W. B. Bankhead, of Alabama, was granted an annulment of her mariage to Wilfred Lawson Butt here today and announced she would be married tomorrow night to Howard Lee, of Dallas, Texas, an avietor.

aviator.

The annulment was not contested by Butt, a former University of Nevada student. Both had been divorced prior to their mariage here some months ago. On their honeymoon to Hawaii, Mrs. Butt said she learned that Butt had not received his final decree of divorce in Los Angeles and she left him.

"I am sure this will be my last trip to Reno—for business reasons," Mrs. Butt told reporters today. "I will be married tomorrow night to Mr. Lee, and he's a dear. We will fly back to Los Angeles and then to Dallas. You know I'm learning aviation and I

Congressman Beats Liquor Indictment

WASHINGTON, June 30.—(F)—
Justice Peyton Gordon, of District of
Columbia supreme court, sustained the
demunrer of Representative Denison,
of Illinois, today to an indictment for
possession of whisky, holding that the
charge was phrased in too general
terms.

The action virtually was equivalent to dismissal of the indictment.

Denison and his former secretary were indicted after prohibition agents had charged that they found trunks containing liquor had been delivered to his office in the house office building.

COLLEGE FRESHMAN SOUGHT IN WOODS

NEW BEDFORD, Mass., June 30.

(P)—Search was resumed today for John R. Perry, 20-year-old William and Mary College freshman, in the woodlands along the Old Fall River road, where the youth was reported seen yesterday. Perry has been missing since last Tuesday.

William E. Taber reported that he saw Perry yesterday, but when he spoke to him the latter ran back into the woods. State police and Boy Scouts assisted by residents of the district, took up the search at the point Taber reported seeing him.

Taber said the young man appeared exhausted and his clothing disordered. NEW BEDFORD, Mass., June 30

Mr. Sens Wed At Home Ceremony

The marriage of Miss Lucile Murphy and Charles Lee Sens, of Baltimor Md., was solemnized yesterday morning at 10:30 o'clock at the home of committee. the bride's sister, Mrs. W. G. Huguley, on Berwick avenue. The ceremony, performed by Father Cotter, pastor of Sacred Heart church, was wit-nessed by only the immediate relatives of the bride, because of a recent bereavement in her family. An

cent bereavement in her family. An altar was effectively arranged in the living room, palms and ferns forming a background for the baskets holding Easter lilies, and sevey-branched candelabra holding white tapers.

The bride was gowned in national blue Romaine crepe, fashioned most becomingly, and her hat was of blue straw. She carried a bouquet of orchids and valley lilies, and the accessories of her costume were in shades of beige.

Mr. and Mrs. Sens left in their car for Baltimore, whence they will motor to the Catskill mountains to spend several weeks. They will reside in Baltimore, where Mr. Sens is connected with the Mount Vernon and Woodberry mills, making their home at 909 Parkway drive.

Among the relatives attending the wedding were Mr. and Mrs. George Murphy, Jr., of Columbus, Ga.

Job-Getting Lodestone

CostsNegro Gang Term

Police court was thrown into an

uproar Monday afternoon when it developed that Rubin Watson, negro, being tried on a cheating and swindling charge, had represented himself as being "two-headed," with more brains than any two of his race.

Evidence developed that Watson represented himself as Dr. Watson and that he had a 50-50 partnership with a Dr. Buzzard. His business was selling Mojo bags, a liquid for recharging the bags and a piece of lode stone guaranteed to get the purchaser a job. All the job hunter had to do was put the lode stone in his right hand, approach the desired employer, look him square in the eye and ask for work. Squeezing the lode stone very tightly made the job a sure thing.

sure thing.

The entire outfit sold for the quite reasonable price of \$2.50.

The prosecuting witness testified hat he did as directed and said he squoze and squoze," but without re-

sults.

Judge Holloway sentenced Watson to 30 days in the stockade, saying, "I'm giving you 15 days for each head and you'd better be glad you didn't have but two."

Police are still searching for the missing Dr. Buzzard.

Extra Session Monday

WASHINGTON, June 30 .- (AP)-

WASHINGTON, June 30.—(P)—
President Hoover apparently is going
to give the weary senate a Fourth of
July holiday before calling the special
session for consideration of the London naval treaty.

It was intimated at the White
House today that if congress adjourns
by Wednesday night or Thursday the
president would issue the call for
the special session to convene on Monday.

will be made for a recess until revember.

Chairman Borah, of the foreign relations committee, who will be in charge of the treaty during its debate in the senate, would make no comment on the proposal to defer the special session until next week, providing congress adjourns now. He said he would put the treaty before the senate and keep it there when the special session is called.

The Conservatore Romano figures included 543 pilgrimages in all with 126,992 members, 78,290 being from Italy, 562 from Africa and 152 from Asia. These statistics gave an exceedingly clear picture of the strenuous program his holiness has maintained in the last 12 months.

In an allocution opening the secret consistory today the pontiff surveyed the situation of the Catholic church, particularly in Rome. He said that Protestant proselyting in Rome must be combatted by an increase in the number of parish priests to serve the outlying quarters of the city. His holiness asserted that the protestant-secs since 1880, when Italian troops took Rome from the Holy See, had carried on the work of "corrosion and conquest with ever-growing insistence." He said recent laws seemed to favor such activity and to be in strong contrast with the spirit and letter of the Lateran conventions.

Referring to the Maltese situation, his holiness styled it the most serious question before him. He laid down three principles, the first of which denied that troubles in Malta had been aroused by the Holy See or officials of the Catholic church in the island. He said the return of peace, "notwithstanding our sincere effective desire and the desire of the Episcopacy itself, has been rendered impossible by persons, actions and facts independent of our will—indeed, contrary to our will because contrary to to the interests of the Catholic religion."

The pontiff further asserted "at no time has our intervention and that of

trary to our will because contrary to
to the interests of the Catholic religion."

The pontiff further asserted "at no
time has our intervention and that of
the Maltese Episcopacy wished to enter the political field. Instead, it has
always limited itself, as was its strict
pastoral duty, to recall, proclaim and
inculcate those principles and moral
laws from which Catholic conduct
and action can never depart."

The pontiff deplored the religious
persecutions in Russia, called attention to his mass of expiations to St.
Peter's last march, and exhorted the
Cardinals to continue the crusade of
prayer. He ordered special prayers
to be said at the end of every mass.

The pope began his allocutions with
an expression of gratitude for all the
pilgrimages. He expressed pleasure
with the success of the Eucharistic
congress at Carthage and joy over the
recent canonizations. Yesterday the
pontiff canonized five North American martyrs, the first new world
saints.

A further honor to come to the Italian trio will be membership in the Curia, the body which carries on the administrative business of the church. The cardinalate now consists of 31 Italians and 32 of other nations.

Announcement was made today that 3,175 pilgrims from North America, in 21 pilgrimages, visited the pontiff hearing his jubilee, which began last year and ended tonight. Latin-America sent 600.

The Conservatore Romano figures included 543 pilgrimages in all with 126,992 members, 78,290 being from Italy, 44.143 from Europe other than Italy, 562 from Africa and 152 from Asia. These statistics gave an exceedingly clear picture of the strenuous program his holiness has maintained in the last 12 months.

In an allocution opening the secret consistory today the pontiff surveyed the situation of the Catholic church, particularly in Rome. He said that Protestant proselyting in Rome must be tombatted by an increase in the number of parish priests to serve the outlying quarters of the city. His of the combatted by an increase in the number of parish priests to serve the outlying quarters of the city. BOBBY JONES WELCOME SPECIAL, EN ROUTE TO NEW YORK, June 30.—Date lines of this nature on newspaper stories constitute a perfect alibi for the telegrapher, linc-

written while swinging around curves at high speed. The typewriter bobs about and one strikes any key he can reach. As a wing writer your correspondent was never a very good shot.

So the progress of the Bobby Jones special can be accurately charted by the recurrence of certain words in a strange tongue.

TAKES FIRST SET.

Serving well, driving with deadly accuracy to both wings and covering court with panther-like swiftness, Allison took the first set, then the second, and finally the match. In the first stages Allison played the net like one inspired.

Cochet may have been off his game but if so it was because the Texan never gave him a chance to get on his game.

Cochet's defeat is just another story of the champion underestimating the strength and determination of youth.

SECOND YEAR SUCCESSES.

As Ty Cobb remarked back in April—"When a pretty good ball club wins a pennant the first year, the second year is the easiest."

It may not work out that way in the two pennant races this season because the first pennant year was unusually soft for both Athletics and Cubs in 1929. But with July breaking out the Athletics again are sailing serenely along in front of all rivals and the Cubs came to the top on Sunday to look round.

These two clubs looked to be the class of the two leagues in April—and they look to be the class today. Neither infield may be of the

and they look to be the class today. Neither infield may be of the wonder variety but each club has a star catcher, good pitching and hard hitting outfield. They have the pitching and the punch, which means they have defensive and offensive strength and this is the combination that arrives. The two races are not over yet. Brooklyn has enough talent to remain dangerous. The Yankee punch is made up of high explosives. But it will take a lot of high-class baseball to outpace the Athletics and Cubs from now on.

A FAMILY ARGUMENT.

The marriage of Rene Lacoste and Mile. Simone de la Chaume brings up the argument as to whether the family game will be tennis or golf. Two years ago, before his illness, Lacoste was the world's tennis champion, a step in front of Henri Cochet. Mile. de la Chaume has been the best woman golfer in France for some time, good enough to win the British crown as well.

Lacoste plays a fair amount of golf, but the interesting point is that a golf couple can be handicapped where a tennis couple can't be, except in rare cases, where one of them has been world

Few husbands absorb any great thrill in being beaten by their wives any form of athletic competition.

So it would not be surprising after a few rounds of golf if

Lacoste was suggesting a game of tennis to re-establish a family equity. One of the most famous marriages in the past was that of Tom Bundy and May Sutton, so far as sporting history goes. They have two young stars coming along who may yet be champions, since they have known an exclusive tennis atmosphere since birth.

FIVE OUT OF EIGHT.

With most of the best tennis players in the world at Wimbledon, the United States landed five among the last eight, and four of these be-longed to the younger set. The French had Cochet and Borotra left, which shows again that France has no younger talent coming on to fill the gap when Cochet and Borotra start to slide.

It was the same way over here. Tilden and Johnston dominated the game so long that when they began to drop back there were no younger stars ready to face the French attack.

Tilden won at Wimbledon just ten years ago when he beat Patterson

of Australia in the final round. Ten years later he has been one of the most formidable competitors in a much stronger field. All in all the results of the Wimbledon championship may have quite a bearing upon the final outcome of Davis cup matches which come later on this month.

ANOTHER BIG RECEPTION.

All the big sporting receptions are not in this country. Max Schmeling lands in Germany this week and the hip-hip will be as noisy as that accorded Bobby Jones over here. Max may have won on the floor, but the point is that he won.

number of home run hitters have suddenly discovered that chasing Babe Ruth without a motorcycle is no way to spend a summer. Several of them are past Ruth's record in other years, but that doesn't alter the vital statistics for 1930.

The march for Minneapolis and Interlachen is now on. Horton Smith and Leo Diegel are now headed in that direction where they intend to keep firing at one R. T. Jones, Jr., until he falls or they exhaust all their ammunition. Which recalls the fact that the battle of interlachen should be one of the greatest in golf history.

Skipper Dobbs was questioned as to what his ball club would do when the Bears, who are no opposition at all, were gone and how he thought they would react against the Lookouts, who are here Saturday, and the clubs of next week, who will be tough. "I think we will keep winning," he said. "Of course we wouldn't be expected to win as many as we are from Mobile but we should win more than our share of games from now on.

AID TO PITCHERS.

"This Mobile series will enable us to get our pitchers in shape. They have been overworked all year because not one of them was sure of himself. We had to use too many relief pitchers. If we can keep going against Mobile with just one pitcher per game we should reach the week-end and the road jump with our pitchers in shape and with the club in a winning mood."

There is some logic in what the Cracker skipper says but it will be necessary for the club to bear down Saturday and next week.

There is no inclination to blame the Mobile players for their showing.

down Saturday and next week.

There is no inclination to blame the Mobile players for their showing. There is some evidence that Jimmy Hamilton might have handled his problem at Mobile more wisely and diplomatically than he did. There is more tendency about the league to blame the league directors for permitting the Mobile club to reach the status it now has. There has been little evidence of constructive thinking by the guiding heads of the league.

YOUNGSTERS.

The Mobile club is composed of youngsters and a few veterans. It owns a pitching staff that is terribly overworked. As one pitcher put it Monday, "When we aren't pitching we are warming up." The infield and outfield is little better than a Class D outfield, containing, however, two

Hamilton is a good baseball man, being able to get players when no one else can, but seems to have a penchant for getting in wrong with fans.

The Bears will hardly get off the bottom all year but Hamilton, with increased funds, will offer a stronger club. Signing of Creson gives him two former Vanderbilt players, Sanders, the second baseman, being the second. Both were star football players, Creson being an All-Southern end.

LEAGUE RECORDS.

One of the most amusing things connected with the situation is the attitude of the directors. They do not seem to consider that the records of the league will mean little, that batting and pitching averages have been helped by the Bears during their weakened condition. The league's records for 1930 will be, to a considerable extent, synthetic. Jim Poole's home run record has been helped greatly by the worn-out Bear pitchers.

Meanwhile the owners can hardly wait.

LINDALE, Ga., June 30.—The Pepperells took a listless game from the Huntsvillé Springers here Monday, 5-2. Stoutenborough held the visitors to seven hits and their two runs came as the result of homers by Higginbothum and Walker. The Pepperell hurler batted in two runs besides pitching a good game. Asa, Wall, with three singles out, of three trips to 2-be plate, led the hitting for the day.

LITTLE ROCK, June 30.—(P)—
Rain tonight caused the postponement until tomorrow night of the scheduled 10-round bout between Eddie (Kid) Wolfe, of Memphis, and Boots Antley, of Atlanta.

Eight Atlanta sandiot teams will battle each other this morning in another round of the annual elimination series to determine the season's winner and the city's representative in the annual state tournament to be played early in August.

The elimination series will continue until one team has won an advantage over all opponents. The next round will be played Tuesday, July 8. In today's games the East Side Robins and the Smyrna Juniors should play one of the best of the season. It will be played at Almand Park. A defeat for either this morning means elimination from further ing means elimination from further

Four-Game Series Draws 155,000 Fans; Ladies Show Interest.

CHICAGO, June 30 .- (4)-Chicago's championship Cubs and Brook-lyn's ambitious Dodgers had a heavy purse and a somewhat staggering list of attendance figures today to refute reports that interest in major league baseball is on the decline.

Approximately 155,000 fans watched the two National league pennant-contending clubs in their four-game series which was concluded yesterday on Wrigley field. The total is believed to be a new major league attendance record for a four-game series in the regular championship playing season.

All the spectators weren't of the paying variety, however, as 25,000 paying variety, however, as 25,000 or more women were admitted free Friday, which is Ladies' Day at Wrigley field. The attendance that day was 50,000. On Thursday the crowd was estimated conservatively at 25,000, while the Saturday game drew 35,000 or more and the Sunday game drew an overflow throng of 45,000. With the Cubs back into first place and a three-game series on with their and a three-game series on with their traditional rivals, the Giants, the Wrigley field turnstiles are expected

ROBINS LEAD OTHER TEAMS;

Uncle Robbie Has Bal-Bunched in American.

By Walter Trumbull.

By Walter Irumbull.

(Copyright, 1930, by the North American Newspaper Alliance.)

NEW YORK, June 30.—If Brooklyn doesn't win the National league pennant this year the robins can blame it all on the Chicago Cubs, That Chicago team agrees with Uncle Wilbert Robinson's men just like green apples agree with a weak digestion.

The Cubs are not so hot against New York, but one little growl out of them and the Brooklyn hunters climb a tree. Chicago is, so far, the only club which has the edge on the Robins in the winning and losing of games played.

HAVE PLENTY.

HAVE PLENTY.

Many persons seem to believe that Brooklyn has a terrific batting punch and nothing else. The Robins have plenty. Wright is the best shortstop in the game, for all-around value, and Lopez is the best young catcher who has shown up in a number of years. Herman has developed into a good general ball player. Brooklyn has a lot of talent.

You must hand it to those Chicago Cubs. Hornsby is no light loss to any club and their pitching staff was pretty well shot early in the season, but Chicago has just kept on playing ball. New York his been getting better pitching and is traveling fast in spite of dropping a game now and then.

THREE IN RACE.

The American league race continues to be a three-cornered affair. The fact that the flag winner will come from the east is becoming more apparent each day. Cleveland hasn't been able to hold the pace; Detroit and St. Louis have been disappointments; the highly touted White Sox haven't been prominent.

The Athletics, Washington and the Yankees will fight it out; and it should be some scrap. Washington's strength is that it has up to the present time been able to do well against the Athletics and more than well against New York. The final result of the round robin between these three teams will just about decide where the pennant will fly.

Philadelphia's real misfortune was not so much the temporary absence of certain infielders, or even the fact that Simmons wasn't always in the game. What hurt the Athletics most was the illness of Connie Mack. With Connie Mack away the boys didn't pay the strict attention to business that he would have demanded and could have enforced. They were inclined to be a bit too much aware of the fact that they had won the flag last year by a big margin. That margin isn't going to count any in the present race. The Mackmen will have to go at top speed all the way, or else attend the world's series as spectators.

SENATORS STRONG. not so much the temporary absence of SENATORS STRONG.

Griffith and Walter Johnson have certainly strengthened Washington. The Senators are going to be tough to beat. They have a good ball club. Bob Shawkey certainly is to be congratulated on his showing during his first season as manager of the Yankees. Shawkey showed fine qualities as a leader when he had the courage of his convictions and started to rebuild the team. He has the men working hard for him.

Bob was fucky in taking over the club in a year when Babe Ruth hit his old-time stride. The Babe is hitting as well as he ever did in his life, and that means that he is hitting the ball further more frequently than anybody else ever hit it. Ruth is an inspiration to his teammates. When he hits, they

to his teammates. When he hits, they hit. Take Ruth out of there and I doubt whether the Yanks would be in the first division.

"You aren't afraid they're related, are you?"

Don Jaime favored his guest with a withering glance. "A man named Jim Hobart was hanged at Austin last week," he retorted. "Was he a relative of yours—this train robber and murderer?"

"Yes," Ken Hobart answered evenly, "he was my half-brother. And I tracked him and captured him. Ablack sheep will crop out in the best of regulated families, you know."

Don Jaime's hand caresed that of his friend. "I did not know. I am sorry, my friend."

Ken Hobart turned bleak eyes upon his host. "I want to quit the rangers, Don Jimmy. I wasn't jesting when I said I'd like to be the manager of Rancho Valle Verde, if you should ever need me."

"You are the man I have been seeking. Ken. When you reasignation to the governor of Texas, and as soon as yon are released return here."

"I think," said Don Jaime Miguel Higuenes presently, "that I must start now to pick those figs. The birds are raising the devil with the ripe ones. My great-grandfather planted those figs. The added, with just a touch of pride. "I have been thinking it would be a very great shame if I departed this world leaving none of my line to care for them. .. Well, now that I shall be tied to this ranch no longer I suppose I must look around, ...

He strolled away under the fig trees. .. To weary, sleepy ken Hobart there came presently, as from a great distance, the finte-like tones of Don Jaime's whistling; he trilled a mournful waltz that had been composed five hundred years before, in spired by the exit of the Moors from Granada.

"That boy and a gringo flapper would get along together as comfortably as two tom-cats tied tail to tail and thrown over a clothes-line," he ranger decided. "Guess I'll have time for a siesta before Flavio draws my bath. Hum-m-m! Strolling around his old-fashioned garden, picking ripe figs and dreaming of his proud ancestors and his duty to posterity. ITHACA, N. Y., June 30.—(P)—
The teeth were substituted in hearing for the ears in an invention exhibited today at the home of Dr. Frederick Bedell, professor's guests appeared to sip their music through straws, as they listened to a phonograph, the sound of which was inaudible to the ears. The seeming straws were long pieces of wood, with sharp, pencil-like points. The listeners placed the sharp points on a tiny metal disc on a round, cloth-covered ball the size of a big fist that concealed the mechanism of the invention.

NEW YORK, June 30.—(P)—Fire early today damaged the galley and my is room of the Mopelia, the four-masted schooner of Count Felix Von Luckner, German "sea devil," at her pier at 79th street and the Hudson river. No one was injured.

Aboard the schooner were Count Von Luckner, his wife, the Countess Ingabod; the latter's maid, Yvonne cloth-covered ball the size of a big fist that concealed the mechanism of the invention.

The sound vibrations pass directly to the auditory nerves through the bones. No eardrums are needed, Professor Bedell said that only destruction of the auditory nerves prevents hearing by the teeth method. He adopted it after consultation with members of the medical faculty at Johns Hopkins, who said that about two-thirds of the deaf could hear through teeth vibration, a larger perthrough teeth vibration, a larger per

The secret of the new receiver is the power of its vibrations. The strokes are shorter than those in sound receivers, but they hit harder. The difference is much like the famous six inches that some of Jack Dempsey's knockout punches traveled as compared with the full arm swings of lesser fighters. The short, hard sound punch transfers to the wood a vibration of strong carrying quality, without distorting the sound.

MINERS, COAL HEADS | INDIAN CAMPAIGNERS TO DRAFT NEW PACT OPEN BOYCOTT WEEK

President of National Congress.

BOMBAY, June 30.—(P)—While the Bombay nationalists today opened a "boycott week" against British goods, the government added another to the list of civil disobedience lead-ers who have been placed behind

place one which has been in force since the great coal strike of 1925-26 and which expires August 31.

Six representatives have been named from each group, the miners headed from each group, the miners headed syed Nahmud, secretary of the con-

by John L. Lewis, international president, and the operators by W. W. Inglis, of Scranton, president of the Glen Alden Coal Company.

At the opening session the miners presented their demands as formulated by the Hazelton, Pa., convention in May. They call for an agreement on the basis of no reduction in wages, equal division of working time among the various mines owned by one company, collection of union dues by the companies and other minor provisions. The attitude of the operators was not made known.

The convention report presented today to the conference was:

"We nathead named, secretary of the conspress.

When the civil resistance movement opened March 12 with a march to the sea for illegal salt-making, the leader, Mahatma Gandhi, was not molested for more than a month. The campaign grew in violence, however, and verotually Gandhi was interned in Yeroda prison at Poona. After that hundreds of nationalists were arrested, among them prominent Gandhi, noted poetess, and Abbas Tyabji, a former judge.

Another was Vallabhai Patel, who, although himself an active worker, is identified principally as the brother of V. J. Patel, former speaker of V. J. Patel,

Bombay's boycott week is the cu-max to a long period of agitation against British goods. The chief weapons of the civil resistance move-ment have been raids against government salt works, non-payment of land ration during the negotiations; and, in addition, that the best efforts of the scale committee be put forth for the elimination of abuses and improvement of conditions."

A statement issued at the close of the three-hour conference said that the manifesto of the miners was disussed, as was the general economic

heavy rain 'did not hait the activities.

Tomorrow a large parade is planned and a partial cessation of work is scheduled as one part of the demonstration. The manifestants will appeal to the public not to buy British goods, it was learned, and will mark with chalk those stores which handle such products. Men, women and children will march in the parades, shouting "boycott" and revolutionary slogans.

The mobile columns of troops which have operated against armed bands of tribesmen have been broken up for return to their home stations, and in this the authorities saw a lessening of the border menace.

Tarzan turned in astonishment.

There in the trail stood a tall man in uniform. Back of him were a number of soldiers in the uniform of the Congo Free State. "He is a murderer, monsieur. We have followed him long. Now he is my prisoner." "Only when I am through with him," said Tarzan sternly, and reaching out a strong hand grasped Werper by the shoulder. The Belgian officer eyed the almost naked white giant with curiosity. He noted the strange contrast between

"Whoever he is," thought the Belgian officer, "he shall not presume to dictate to me." He beckoned to the soldiers who quickly surrounded the apeman and his captive. Still Tarzan held Werper, "He goes with me first," he said quietly. The officer lost his temper. "Unless you wish to be hurt, you will not interfere with me," he said. "Take the prisoner, sergeant." Werper raised his lips close to Tarzan's ear. "Keep me from them and I can show you the very spot where I saw your wife last night," he whispered. Arrival at Oakland will mark the end of a two-year round-the-world journey for the Southern Cross and its commander, Squadron Leader Charles Kingsford-Smith.

The party left Manhattan for Teter boro, N. J., early this morning and, being a little behind schedule, put on ed over the smooth concrete roads As the three cars were making 50 miles an hour, a motorcycle policeman, unaware of the fliers' identity While they were away, finishing waved them to the curb. When the situation was explained to him, how ever, he shook hands all around and cleared the road for them.

After a visit to British and Dutch embassies the aviators had lunch with President Hoover, posed with him for pictures in the White House grounds, visited the senate floor and then took off again for New York, arriving at support time.

Probe Into G. Lloyd Preacher FOOD AUTHORITY Accounts Opens Friday Night

Special Council Committee Will Investigate Payments Made by City to Architects.

An exhaustive probe into the salary accounts of the G. Lloyd Preacher organization, architects on the \$2,700,000 school construction program and the new Atlanta city hall, will be made at a meeting of a special council committee, named to investigate the will be investigate the matter be investigated as far as the committee can go.

"It is clear to me that the school department made a bad contract with Mr. Preacher," Mr. Milliean said in commenting on the cost plus contract which the city had with Preacher. More than a score of subpoenas will be served for the Thursday meeting by City Attorney James L. Mayson and his assistants.

Many items included in the vouches have fallen under the fire of the committee including payments for office supplies, taxes on foreign real estate, principal and interest on bank loans, attorneys' fees, Christmas gifts, contributions to charitable organizations, advertising, flowers and others.

made at a meeting of a special council committee, named to investigate the payments to Preacher, to be held at 7:30 o'clock Friday night at the city hall.

The decision to hold another meeting of the committee came after lengthy questioning of several employes of the Preacher firm when it developed that there may be some discrepancy in amounts charged for the salaries of various employes and the amounts they actually received.

A. W. Smith, H. A. Tidwell and J. M. Russell, who were carried on the payrolls of the architectural company, testified that while they were not paid the amounts set opposite their names on the vouchers each month, they did receive a salary and a bonus. They could not recall just what amounts they received as bonuses.

Alderman G. Everett Millican, chairman, and J. Charlie Murphy, another member of the committee, will

much.

The row is an outstanding one in a congress which has been marked by clashes between the two houses.

President Hoover was understood today to be making a move to compromise the split between the senate, which voted \$12,000,000 as federal contribution to the district's support, and the house, which voted only \$9,000,000.

Today the house passed, 182 to 3, a resolution to provide funds to pay current expenses on the same basis as during the current year. But a number of interested senators indicated they would seek to block senate action on this, and also to oppose the necessary concurrent resolution for adjournment, until the house gives in con-

morting after he had been virtually an invalid for eight months from heart disease. The funeral will be held Wednesday.

Dr. Wiley began a life-long crusade against adulterated food and drugs in 1883 when he became chief chemist of the department of agriculture. He led the fight which resulted in enactment of the pure food and drug laws and kept a watchful eye-on their administration almost until the end.

It was a 30 years war into which D. Wiley led the agriculture department and he was a principal in many a bitter battle over pure foods and drugs. In 1912 a special board recommended that he be "permitted to resign." Secretary of Agriculture Wilson and Attorney General Wickersham approved the report but President Taft sustained Dr. Wiley and praised his work.

Thus vindicated, the chemist resigned from the department of agriculture and turned to the more peaceful occupation of contributing editor to a national magazine, writing articles dealing with food problems for

Although greatly enfeebled, Dr. Wiley early this month testified before a senate agriculture sub-committee on pure food and drugs. The next day he attended a directors' meeting of a local bank but had been bedridden since.

WILLIAM F. MAURER DIES AT RESIDENCE

William F. Maurer, 65, who prior to his retirement had been a chef in the leading hotels of Atlanta, died at the residence, 415 Parkway drive, Monday afternoon. Funeral services will be held from the Sacred Heart church, the hour to be announced later by Sam Greenberg and Company, in charge of the arrangements.

It is mostly a matter of pride, but enough to cause serious danger that members of congress will not get to leave here Wednesday or Thursday night in time to make Fourth of July speeches in their home districts.

The fight has been going on for six weeks, the bill having been deadlocked in conference since May 19. Prior to that, the house passed the bill in its favored form and the senate also approved its version. by Sam Greenberg and Company, in charge of the arrangements.

SOUTHEAST GEORGIA

WAYCROSS, Ga., June 30 .- Plans

WAYCROSS, Ga., June 30.—Plans are being made in Wayne, Toombs, Appling, Pierce and other southeast Georgia counties for the shipment of the Big Stem Jersey potato crop, which will come on the market early in July.

Cucumbers and other truck crops have not brought satisfactory prices this year because they came on the market late, but high hopes are held for good potato prices.

Fordhook lima beans have brought fair prices, four cars shipped from Blackshear being sold, it is reported, at a fair profit to the growers. The bean crop, like other truck crops, however, was late and the prices dropped before the season was over.

former employe of the Georgia railroad, were conducted from Spring Hill at 11 o'clock Monday morning by the Rev. J. W. Caldwell. Interment was at West View cemetery.

Mr. Hussey was born December 19, 1854, in Kenansville, N. C., the son of Dr. Maryette and Martha Loftin Hussey. He is survived by his widow, Mrs. Ada Collins Hussey, and two children, Grace and Hoyt.

For 37 years Mr. Hussey was connected with the Atlanta offices of the Georgia railroad. Ritter.

The action was taken on agreement of counsel that no state liquidator would be appointed by Comptroller Ernest Amos until that time. The petition was brought by Mrs. Rosa Hankins and her husband, of Cook county, Illinois, depositors in the bank. The action had the effect of deferring naming of a liquidator by the state banking department, but left conduct of the banks' affairs within the jurisdiction of that body.

NOW ARE IN ORDER. After having been married and divorced from each other three times, Chester and Fern Kobs, of Elgin, Ill., have come to the conclusion that they cannot get along without quarreling. Fern has just been granted her third divorce, making the usual charge of cruelty against Chester. In all their divorces the Kobs patronized Judge. Frank E. Shopen, who issued the decrees, and they engaged the same set of lawyers.

ATHLETIC SUPREMACY

AGAIN DEMONSTRATED. The champion beer drinkers of the world, male and female, are two Americans, though heaven knows where they got their practice. Jack Frost, a Harvard graduate, walked into a Paris bar and clipped five seconds off the best previous record when, before witnesses, he surrounded a half-gallon stein in 17 seconds. Besides the honor he gained he was permitted to leave without paying for the beer, setting a precedent for Paris bars. And the lady champion is Helen Eshelman, of Lancaster, Pa., who downed the half-gallon mug in 62 1-2 certified
